Trader's Challenge:

Traders require a limited number hours of data (for example: 8am to 4pm) on a symbol that trades many hours during the day and night.

Trade Navigator's™ Feature:

Trade Navigator™ provides the capability for the Trade to specify the start and stop times on the data stream to match their trading style.

Trade Navigator's™ Benefit:

Trade Navigator's™ Start Data time and Stop Data time feature is a powerful capability to reduce the number of data periods, when there is no interest in those periods. A summary of additional benefits include:

1. Saves Trader time and therefore money.
2. Assists in the Trader's trading execution process.
3. Simplifies the Trader's work.

Trade Navigator™ Example:

The following example shows the ER2 with 60 minute tick and 8am to 4pm. The blank spots represent times of no interest.
