### Trader's Challenge:

Traders have a requirement to export market data to be used in another system or process.

### Trade Navigator's™ Feature:

Trade Navigator's™ Export Market Data feature allows the Trader to do the following:

1. Select a Symbol Group
2. Select an output format (CSI, MetaStock, ASCII)
3. Select a data range
4. Select a time period (5 minutes to Yearly)
5. Select a destination for the created file

### Trade Navigator's™ Benefit:

Trade Navigator's™ Export Market Data feature provides the Trader with a quick and easy method of identifying the desired data set and creating the export file. A summary of additional benefits include:

1. Saves Trader time and therefore money.
2. Assists in the Trader's trading execution process.
3. Simplifies the Trader's work.

### Trade Navigator™ Example:

The following example is exporting data of the Dow 30, in ASCII format, for the date range of 03/01/2008 to 09/05/2008, End of Day data, to the test file in the Genesis directory
