Trader's Challenge:

Spread Traders require the capability to see the spread between two or more market symbols and to understand the applicable multipliers and differences.

Trade Navigator's™ Feature:

Trade Navigator's™ Spread Traders Multiple Calculator feature will provide the Trader with the capability to select two or more markets symbols and automatically receive the applicable multipliers and chart the differences.

Trade Navigator's™ Benefit:

Trade Navigator's™ Spread Traders Multiple Calculator feature provides the Trader with capability of instantly finding market symbol multipliers and differences between symbols. A summary of additional benefits include:

1. Saves Trader time and therefore money.
2. Assists in the Trader's trading execution process.
3. Simplifies the Trade4's work.

Trade Navigator™ Example:

The following example compares QM-200810 and QM-200811. This chart shows the differences between these two symbols.
