Trader's Challenge:

Traders have a requirement to replay (like instant replay in football) prior trading sessions, so that they can review the trading session at a later date and time.

Trade Navigator's™ Feature:

Trade Navigator's™ Streaming Replay function allows the Trader to select a historical date, record the market data, and download the replay to the Trader's computer. Then the Trader can replay the trading session at leisure and as often as desired. The following symbols are available:

\$DJIA	\$EUR-USD	ER2-067	YM1-067
\$SPX	\$USD-JPY	ER1-067	ZB-067
\$COMPQ	\$USD-CHF	ES-067	ZB1-067
\$TICK	\$GBP-USD	G6E-067	ZF-067

Trade Navigator's™ Benefit:

Trade Navigator's™ Streaming Replay function provides the Trader with a quick visual presentation of the symbol data as it flows through the trading period. The trader may stop the replay; skip parts, restart, etc. Just like a video machine. A summary of additional benefits include:

1. Saves Trader time and therefore money.
2. Assists in the Trader's trading execution process.
3. Simplifies the Trader's work.
