Trader's Challenge:

Traders may have a requirement to test five (5) conditions to make a trading decision. Each condition needs to be weighted as to its relative importance. The Trader requires a sum of the weighted condition results.

Trade Navigator's™ Feature:

Trade Navigator's™ Weighted Conditions Scoring feature allows the Trader to weight and score the required condition for filtering symbols or for displaying symbols on the chart. Trade Navigator's Chart/Indicator Scoring feature can become a part of a strategy or rule.

Trade Navigator's™ Benefit:

Trade Navigator's™ Weighted Conditions Scoring feature easily permits the Trader to weight conditions in importance and calculate a score which then can be used for many purposes. A summary of additional benefits include:

1. Saves Trader time and therefore money.
2. Assists in the Trader's trading execution process.
3. Simplifies the Trader's work.

Trade Navigator™ Example:

You want to filter for stocks that meet 2 out of 3 conditions

- 1) 10 day Moving Average is above the 30 day moving average
- 2) The RSI (C,7) is above 50
- 3) Stochastic D(3) and Stochastic K (14,3) is above 60
